PROFILE SUMMARY

Third-year Computer Science and Business Systems student with a passion for visual storytelling and user-centric design. Skilled in Figma, WordPress, Canva, and front-end development with a strong foundation in HTML, CSS, JavaScript, and responsive design. Eager to contribute creative ideas and technical skills in a dynamic design environment.

PROJECTS

- **Wizex - UI/UX QA Intern**

Evaluated UI and user flows across complex ERP and HMS systems, identifying friction points in day-to-day workflows and proposing design fixes to improve usability for non-technical staff.

- **BigBytes – Richoos Web Design**

Co-designed a B2B landing page and e-commerce store for a UAE-based packaging supplier with no prior web presence. Led research and wireframing across product catalog structure, competitor analysis, and layout iterations.

[\[Website Link\]](#) | *Wordpress, Figma*

- **Theeta Mess – Branding & Marketing Design**

Contributed to the visual branding of Theeta Mess by creating marketing materials such as brochures, Instagram posts, and promotional creatives. Focused on maintaining brand consistency and appeal across all designs.

[\[Instagram Link\]](#) | *Figma, Canva*

- **Trip Amigo – Travel Brand Identity & Website Design**

Developed the complete brand identity for Trip Amigo, a travel company. Designed Instagram mockups, promotional creatives, and a fully envisioned travel website. Ensured cohesive visuals and engaging user experience across all platforms.
